THE EI-LO STORY

To ensure quality, consistency and delivery, you need a committed, self-sufficient partner. To make our premium blank t-shirts, we strive to be the most vertically-integrated maker possible. We use our own combed ring-spun yarn from 100% USA cotton. Knit, dye and finish the fabric. Cut, make and sew all our tees with side seams.

Our team of engineers also craft the most premium fleece garments your customers will ever own, developing and refining every aspect of the technology. Our fabrics are optimal. Versatile.

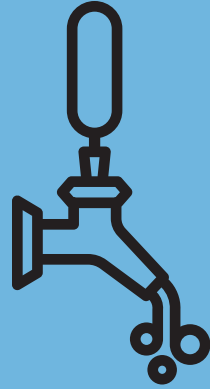

We distribute Ei-Lo from our own strategically located centers across the USA, controlling every aspect of the process required to get you exactly the tees and fleece you need, exactly when you need them.

Our Ei-Lo owned factory is one of the most tech-smart in the western hemisphere. It gives us the power to produce top quality at a competitive price, with a no-doubt-about-it consistency and more-than-sufficient capacity (currently up to 4.5 million units monthly). And we are, of course, USDA and NAFTA certified.

So when you're looking for premium knit apparel with universal appeal...When you want premier tees and fleece designs inspired by the latest styles and trends...When you want easy ordering and immediate delivery...When you need a partner that will provide personal attention to help grow your business...

That's when you want Ei-Lo. Let's **THREAD TOGETHER.**
